

## Cambridge Middle School Network: School-Based Staff 2018-2019

The Cambridge Middle School Network (MSN) works to:

- **Identify** needs, barriers and opportunity gaps in programming for Cambridge young people
- **Advocate** for the value of out-of-school time and the need for support to get young people connected
- **Mobilize** program providers & school staff to create a more equitable system of opportunities
- **Support** young people in connecting to experiences that enrich their present and future learning and life success

### Why does this matter?

We know that a **large percentage of the Opportunity Gap is attributed to experiences that youth have OUTSIDE of school.** By focusing on getting ALL students connected to experiences that motivate them, help them find their talents, engage safely with peers and enrich academics, we can make a huge difference in their lives and how they perform in school.

<b><u>What do we do?</u></b>	<p>At each Upper School, the Middle School Network supports two staff:</p>				<p><b>In the Community:</b> The Middle School Network convenes all of the programs that serve middle school youth in Cambridge (once a month) to discuss barriers to access, programming and initiatives for engaging middle school youth. Three times a year, we publish a Resource Guide of opportunities for 6-8<sup>th</sup> graders in Cambridge</p>
